Synopsis

Alcuni protagonisti del tradizionale Workshop di Cernobbio "Lo scenario dell'economia e della finanza" illustreranno le tendenze del quadro globale più attuali e rilevanti per l'economia e gli investimenti.

Viviamo una fase complicata, caratterizzata da incertezza economica, fragilità finanziaria, instabilità geopolitica.

Quali fattori di discontinuità caratterizzeranno i prossimi scenari per le imprese italiane, a livello globale e in Europa?

Quali le sfide interne, anche nel quadro di un difficile equilibrio tra stabilità e sostegno alla crescita?

Con l'attenzione rivolta agli scenari futuri, costituiranno oggetto di trattazione i seguenti temi:

- commercio, flussi di capitali e tecnologia nell'economia globale
- le relazioni tra USA e Cina
- effetto Brexit e agenda per l'Europa
- agenda per l'Italia.
